"Out on a Limb," a three-act comedy by Albert Johnson, was presented by the junior class on Saturday, December 5 at 8 o'clock in the high school gymnasium. The premise of the play was "Don't blame others for your own maladjustments but grab your own boot straps and yank." The excitement and comedy centered around Billie Weber, the 18-year old daughter. Billie and her friends belong to the S. P. P. --Society for the prevention of Parents. Everything gets off to a big start when Charley Craig, a handsome boarder in the Weber home, admires Billie's sketch for greeting cards and suggests that they take samples to the county seat to obtain a licence so that she can sell them. This and other incidences that follow, cause Punk, the jealous boyfriend, Mr. and Mrs. Weber, and everyone else to think that they have eloped. Adding to the excitement and tension of the play is the humor of Punk, the anxiety of the mother, and a romance between Aunt Mabel and Professor Dodenhoff.

SENIOR PLAY

"The Egg and I," a two-act play of six scenes by Betty MacDonald, was presented by the senior class on April 8. The play was under the direction of Mrs. Kay Pommier. The comedy is based on the book The Egg and I and tells about the MacDonald family's difficulties in getting adjusted to the primitive life on a chicken ranch in the mountains of Washington after having lived in Seattle. When the family moved to the ranch, they expected it to be almost the same as living in Seattle, but they find it to be alot of work and worry. After much disappointment, Betty and the girls decide to go back to Seattle. Donald tries to persuade them to stay, but they won't hear of it. When they had finished packing and were almost ready to go, they realize how attached they had become to the place and decide to stay even though it meant getting up at 5 a. m.

LAST WILL & TESTAMENT

We, the mighty class of 1960, having reasonable control of our faculties and with a hard earned accumulation of priceless knowledge tucked away in our little heads after twelve long years of school do hereby declare the following distribution of our possessions to the poor souls left behind.

Good luck to Mike Bilden as he receives Wayne Anderson's ability to skip school and not get caught.

Sharon Austinson wills her "tinkling" bracelets to Linda Halvorson. See you in Jamestown, Linda.

Verna Baldock leaves her quiet ways to Tim Hoff. Make use of them, Tim.

To Allen Strom goes Gary Bjerke's "face-making" ability and timid approach.

Francia Bowles wills her "fluting" ability to any windy person.

Marilyn Ellingson wills her red hair to Lavonne Ramstad.

James Granberg wills his high pressure water faucet in the physics lab to the next lucky science student.

Maureen Grina wills to those who make use of it the opportunities of the development of one's education here at NHS.

To Eddy Sherva goes Sigurd Hanson's accident-free auto record.

Crystal Hart leaves her ability to be in school on time to Bonnie Brorby and Tim Hoff.

Warren Holte wills his sideburns to Gerald Hagen.

Karen Jodock's nickname, "Dimples," goes to Dnny Gabriel.

Robert Johnson leaves his knowledge of parking places to Jim Maurseth, although Jim already knows a few of his own.

To Myrna Grande goes Franky Knain's interest in physics and her driving ability to Linda Tornbom.

Jerome Mandt wills his Model "A" to Pepper Rosset. Careful on the bumps, Pepper.

Barbara Maurseth wills her letter-writing ability to Henry Thorstenson and her "quick-hair-color-changes" to Karyn Anderson.

Wilma Mullet leaves her blushing ways in band and chorus to Mr. Otteson's next poor victim.

William Mullet wills his "managing" abilities to Duane Sherva.

Larry Olson leaves his quick wit and sarcasm, along with his locks, to Gerald Hagen.

Curtis Peterson wills his used by "not damaged" excuses to Allen Strom.

Dennis Maristuen leaves his job on the paper staff to Henry Thorstenson.

Gordon Peterson leaves his ability to get along with underclassmen, "preferably the girls," to Joel Tangen.

Sheila Quanrud leaves her editorship of the NHS Review to Sandy Thompson.

Ilah Schol wills her "girlish giggle" to Mr. Otteson. We know how well he likes it.

To Mr. Mickels goes Carole Stendahl's chewing gum.

Janet Swenson leaves her worried look during a math course to Linda Halvorson. Use it in Trig next year, Linda.

Ronald Tandberg leaves his name "Duke" to the next dodger fan.

At Mrs. Pederson's request, Richard Wall wills his seat in French class to Kermit Bakke.

John Walswick leaves his janitor's job to the next person who enjoys pushing a broom.

Maxine Wasness leaves her position on the cheer-leading squad to anyone with a lound voice and a lot of pep.

To the faculty we give our hopes for a bright and successful future, and we leave also with them the membories of the class of 1960.

The juniors inherit our title as "Seniors," our ability to get along together, and all the privileges of being a senior.

To the sophomores go our amiable ways in hopes that they will use them to the best of their abilities.

The freshmen receive our mature outloook on life.

And last of all, we, the seniors of 1960, will the best of luck and success to the future students of NHS.

In witness whereof, we hereby affix our seal and signature this thirteenth day of May in the year nineteen-hundred and sixty.

PROPHECY

The year is 1980; automobiles are obsolete; people are vacationing on the moon; most surpising of all, rock and roll has died out. By looking into a recently invented electronic, super-sonic, interplanetary crystal ball, we can easily see what is happening in this date twenty years hence. Let's take a look and see what is happening to the graduating class of 1960

There seems to be something wrong. The crystal ball is all foggy. No, that's not fog; that's dust. Wayne Anderson is our summerfallowing Stutsman County, one of the seven counties he owns.

It seems that New York has attracted many of our class. Sharon is now playing first clarinet for the New York Philharmonic Orchestra, Marilyn has a display of her art work in the New York Museum of Fine Arts, and Sheila has become the editor of the New York Daily News. Since Sheila was named to this post, the paper has been renamed The New York Weekly News.

Many of the class have been influenced by the brainwashing they suffered during high school and are now in the teaching field. Verna Baldock is the Superintendent of Public Instruction in Grand Forks County, while Willy and Wilma have been named to the posts of Dean of Education and Dean of Women respectively, at Harvard and Vassar respectively. Frances Knain is also teaching; she has a class in orientation called "How to Get Along with Teachers." Jim Granberg, who always believed in rigid training, has just brought his well-conditioned basketball team to their fourteenth consecutive state title.

Our electronic crystal ball seems to have stopped working. We'll have to call in the famous physicist Robert Johnson to repair it. (Mean, faultfinding readers will probably realize that it would be rather difficult for us in 1960 to call a prominent physicist of 1980, but a kind-hearted, sincere reader will overlook such minor discrepancies.)

We have writers in our class too. Crystal Hart has become one of the most famous play writers in America. That just goes to show what can be done with a little heart. Gary has published his own book of jokes and limericks which has met with great success.

Showbusiness has attracted two members of our class. Janet now has the leading role in the new broadway musical, "My Square Lady." Maxine is presently the star of the TV show, "Keep Talking."

Richard Wall, eminent defense attorney, is now engated in defending John Walswick, who was charged with accepting payolla while on his nationally known radio program, "Rock with Red."

Among the top government officials of the day are three members from the class of '60. Larry Olson was recently appointed by President Curtis Peterson to head a debating team discussing interplanetary space control with Russia. Sigurd Hanson now heads a group of men studying communist propaganda tactics.

Jerome Mandt has just developed a new breed of cattle considerably larger than any previous type. This was done by crossing a shorthorn with an elephant. Jerome bought Grand Forks County to graze them in. Warren Holte also has revolutionized farming. He has set up a completely push-button farm.

Barbara was bought the controlling interest in the Taste-Freeze Company and has installed one in the living room of her $75,000 new home.

Ilah Schol is still working as stewardess on the Mars to Neptune flight where she has been employed for the past eleven years. The round trip takes 39 years and has a definite advantage in that after making one trip you can retire and collect social security.

Here's an interesting note. Gordy Peterson is now exhibiting his antique 1959 Chevy, which he still drives in his spare time.

The Home Ec'ers, Karen and Carole, have become famous for developing a new formula for a cake mix.

Francia Bowles, famous social worker, has been credited with wiping out all juvenile delinquency in Wayout, New Mexico--a town of 63 people.

We see that Maureen Grina has received the Nobel Prize for medicine. She found an ingenious method for curing hiccoughs--put your head in a pail of water and keep it submerged for 20 minutes. Even now in 1980, a simple cure like this is very effective.

It looks like Denny Maristuen is still going to the U. He's probably the only person in the United States with degrees in astronomy, chemistry, geology, civil engineering, elementary education, public accounting, and safe-cracking.

We see that Ron Tandberg, the world famous archetect, has finally successfully completed the underground tunnel from the boys' dorm to the girls' dorm at the Agricultural College at Fargo.

HISTORY

In the year of Nineteen Hundred and Forty Eight, sixteen timid, frightened first graders entered the Northwood Public School for the first time as students. Miss Phyllis Skurdell was our first grade teacher. In our class were Francia Bowles, Maureen Grina, Darlene Holter, Robert Johnson, Frances Knain, Frederick Kvamme, Dennis Maristuen, Larry Olson, Eugene Pladson, Sheila Quanrud, Carolyn Sherva, Frances Kay Spoonheim, Ronald Tandberg, Maxine Wasness, and Patty Wall.

In second grade we were again taught by Miss Skurdell. Kenneth Kittock and Virgil Enger joined us, while Eugene Pladson and Patty Wall left us.

Miss Iverna Johnson greeted us at the door of our third grade room. Sharon Austinson, Richard Gordon, David Thorsel, Patty Wall joined us, but Virgil Enger left.

As fourth graders we were taught by Miss Ardelle Schwartz. Gale Buck, Cecelia Martin, and Sylvester Martin joined us this year, but David Thorsel left.

In the fifth grade Ronald Groth, Wilma and William Mullet, and John Walswick joined us. Gale Buck, Robert Johnson, Cecila Martin, and Sylvia Martin did not return to our class this year. Miss Grace Monson was our teacher.

We climbed the stairs for sixth grade, where we were taught by Miss Monson again. This year we gained Janice Myron, Robert Johnson, and Carol Pierce, but Frederick Kvamme and John Walswick left.

As seventh graders we were again taught by Miss Monson. Janet Swenson, Marilyn Funk, Jerome Mandt, and John Walswick were new members of our class this year, but Robert Johnson and Carole Pierce did not come back for their seventh grade year.

In eighth grade Jim Granberg came to us from Devils Lake, but Sheila Quanrud left us.

In the fall of 1955, thirty-six green freshmen walked into the assembly, feeling very important to be out of the grades and on the threshold of a high school career. Included in our class were Wayne Anderson, Sharon Austinson, Gary Bjerke, Francia Bowles, Marilyn Ellingson, Gerald Gabriel, Jim Granberg, Maureen Grina, Sigurd Hanson, Sally Hanson, Crystal Hart, Warren Holte, Darlene Holter, Karen Jodock, Robert Johnson, Kenneth Kittock, Frances Knain, Jerome Mandt, Dennis Maristuen, Barbara Maurseth, William Mullet, Wilma Mullet, Janice Myron, Larry Olson, Curtis Peterson, Gordon Peterson, Ilah Schol, Carolyn Sherva, Ervin Sondreal, Frances Spoonheim, Carole Stendahl, Janet Swenson, John Walswick, Maxine Waness, Richard Wall and Guenter Viktor. Our class officers were Ron Tandberg, president; Dennis Maristuen, vice president; Janet Swenson, secretary; and Curtis Peterson, treasurer. Our class adviser was Robert Mickels. The highlight of the year were the freshmen initiation and return party and the crowning of the freshmen king and queen candidates, Janet Swenson and Dennis Maristuen.

The next fall we returned as happy sophomores. Frances Kay Spoonheim and Sylvia Hanson left us, but Sheila Quanrud again returned to our ranks. This year's class officers were Wayne Anderson, president; Larry Olson, vice president; Francia Bowles, secretary; Jim Granberg, treasurer. Francia Bowles and Gary Bjerke were crowned carnival king and queen. Robert Mickels was our class adviser again this year.

Verna Baldock joined our class in our junior year in the fall of '58, and Guenter Viktor dropped out. The Junior class play, "Ten O'clock Scholar," the prom and banquet were the highlights of the school calendar of events. Jim Granberg was our class president, and Robert Johnson, Maureen Grina, and Jerome Mandt were vice president, secretary and treasurer respectively. Miss Dianne Aafedt and Mr. Oscar Kepler were our class advisers.

Soon the day came when we filed in as "high and mighty" seniors. Northwood's first homecoming, our class play, "The Egg and I," the prom and banquet, editing of the annual, and graduation were the highlights of our final year. Dennis Maristuen was our class president, and Wayne Anderson, Barbara Maurseth, and Curtis Peterson were vice president, secretary and treasurer respectively. Maureen Grina was named valedictorian of the graduating class, and Sheila Quanrud was salutatorian.
